

CITNM and FEUP bring together about 50 institutions from 15 countries at ECI Meeting

The event joins iron experts from all over Europe for the 10th time

The Centre for Innovation and Technology N. Mahalingam (CITNM) and the Faculty of Engineering of the University of Porto (FEUP) organize the 10th edition of the European Cast Iron Meeting (ECI), which will take place on April 12 and 13, 2018, in Águeda and Porto, respectively. This is the first time that this European event takes place in Portugal.

ECI Meeting 2018 brings together around 50 internationally renowned institutions from 15 countries, including industry, research centers and education and training institutions. Companies such as Continental, Georg Fischer, Volvo, Clariant, Ferroglobe, Zanardi Fonderie, Fundipor, Sakthi Portugal, IK4-Azterlan, Portuguese Foundry Association and universities/faculties from 10 European countries will be present at this meeting.

European Cast Iron Meeting is an event dedicated to the presentation and debate of research and innovation in cast iron. This year the event's main topics are the new material properties, metallurgical control, advanced research and the process of production.

ECI Meeting 2018 has the support of Clariant, Fundipor and Sakthi Portugal SP21.

CITNM continues to affirm itself in line with its mission of "enhance knowledge and innovation in metallurgy field" and "encourage cooperation between institutions in order to strengthen R&D&I".
